# Soft Arch and Design Patterns Term Project One Page

## Hayden Johnson and Matthew Haloostock

Github repo - https://github.com/mathaloo/CIS476

Youtube video - https://youtu.be/WMhGFd-jCTo

Note - Error in the UML class diagram for Observer pattern was noticed and corrected after the presentation was recorded. The UML has been updated in the report and the slides. The expiration string in ExpObserver and the password string in PswdObserver have both been updated to the state InfoSubject attribute instead.
